

Brief report on Tree Plantation

Title of Event	: Tree Plantation Drive
Date	: 13th September 2021
Organized by	: SVKM's Institute of Pharmacy, Dhule
Theme	: "Plant more tree – make the environment pollution free"
Venue	: Avadhan, Dhule.
No. of Participants	: 28

SVKM's Institute of Pharmacy in Dhule successfully organized a Tree Plantation drive at the college campus on Monday, September 13, 2021. The event conducted by the NSS Department of the college and inaugurated by Dr. Sameer N. Goyal. During the inauguration, Dr. Goyal emphasized the importance of trees in the environment. He personally planted saplings in the campus surroundings and ensured they were watered. Following his lead, the teaching and non-teaching staff enthusiastically planted over 50 plants, including Neem, Peeples, flowering plants, and other shade trees.

The objective of the tree plantation drive was twofold: to protect the endangered environment and enhance the beauty of our surroundings. Trees are invaluable gifts from nature and considered the best friends of human beings. They provide us with numerous benefits, such as absorbing carbon dioxide and producing oxygen, which are essential for all living beings. Trees also offer shade, medicinal resources, food, fruits, furniture, and fuel. Additionally, they play a crucial role in maintaining a cool climate and promoting rainfall, as well as preventing soil erosion.

Dhule Municipal Corporation supplied saplings for above initiative to work against deforestation to maintain ecological balance. The participants displayed great zeal of interest in ensuring the success of the event, contributing to a greener and cleaner campus and environment.
