Background:

Tree plantation means planting trees and plants. The purpose of tree plantation is to save the endangered environment and to beautify our life. Trees are valuable gifts of nature. They are known as the best friends of human beings. They benefit us in various ways. The lives of men and other animals and insects are inconceivable without the existence of trees in the world. Trees absorb carbon dioxide and give us oxygen without which no living being can live. Trees give us shade, medicine, food, fruits, furniture, fuel etc. Trees also keep the weather cool and cause rainfall. They also bind the soil and thus prevent erosion.

Agenda:

- To create awareness amongst people about the importance of trees.
- To plant 50 medicinal plants.
- To encourage greenery at the village level.

Activities:

The SVKM Institute of Pharmacy has successfully completed the event of Tree Plantation at Akkalpada village on the occasion of the birthday of “**Shri. Amrishbhai Patel**” President SVKM on 14/09/2018. Dr. Sameer N. Goyal, Principal SVKM Institute of Pharmacy inaugurated the Tree plantation event by planting trees initially. He shared a few words about the importance of trees in the environment with the students. Around 50 saplings were sowed by teaching; non-teaching staff along with students together with great interest.
